Reasons For Allowance

1. This application has been examined. The RCE and amendment filed 8/26/05 have been entered.
2. The following is an examiner's statement of reasons for allowance: The amendment filed 8/26/05 places the application into condition for allowance by adding to the independent claims how the picture indicia represent the captured pictures and that on screen input identifies the plurality of the captured pictures as a group, whereby a user inputs at one time to a single presentation of an information entry area customized metadata to characterize the group of pictures, and wherein the inputted customized metadata is accepted and automatically associated with each of the pictures of the group. In particular, this overcomes any art which would teach inputting metadata at the time of capturing the image. Rather, in the present invention a plurality of already captured pictures may be user designated as a group and then have user customized metadata be inputted once for the group which would cause the customized metadata to automatically be associated with each of the pictures of the designated group. The features combined in the independent claims (1 amended – method, 9 amended – graphical user interface) are not set forth in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
